Affairs Information and Public Department

Public Service Announcement

August 9, 2021

The Liberia Electricity Corporation wishes to inform its valued customers and the general public that on Wednesday, August 11, 2021 the TRANSCO/CLSG network to Liberia will undergo the second phase of the commissioning & testing activities. This exercise will require the Mount Coffee Hydro Plant to be synchronized with the TRANSCO/CLSG 225Kv network.

Please note that during this period, there may be some power fluctuations and outages within the Monrovia Grid.

The LEC regrets any inconvenience these activities may cause its value customers and the general public.

SAFETY NOTICE TO THE PUBLIC: Please keep away from the network and treat the system as live all the time.

Signed: The Management
